Get Your Free OCR API Key

Register here for your free OCR API key. The OCR API provides a simple way of parsing images and multi-page PDF documents (PDF OCR) and getting the extracted text results returned in a JSON format. The OCR API has three tiers/levels. The free OCR API plan has a rate limit of 500 requests per day per IP address to prevent accidental spamming. The PRO and PRO PDF plans do not have such a limit.

For even faster response times and **guaranteed 100% uptime** PRO plans are available. The PRO OCR API operates on servers separate from the free OCR API service. You receive the URLs for the global PRO endpoints and your API key in the welcome email directly after you have signed-up for the PRO or PRO PDF account. The PRO OCR API is also available as locally installable on-premise OCR software.
